-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Harsch (U.S. Patent 2,412,398)

Harsch discloses a screed including an elongated frame (8, 9, 10, 11) to which a plurality of individual screed units (Figure 5) are slidably attached (Figure 1, for example). Each of the screed units includes a lower screed plate (3) having a leading edge and flat bottom surface (Figure 5, for example). The plates are attached such that all of the plates may be aligned to form a continuous screeding line (Figure 2, for example) and independently movable relative to an adjacent screed between lowest and highest positions (Figure 1).

There is optionally a hydraulic mechanism to move the units.

Allowable Subject Matter

Claims 1-3 are allowed.

Response to Arguments

Applicant's arguments filed 31 August 2006 have been fully considered but they are not persuasive. The arguments directed toward Harsch are more specific than is claim language. As pointed out in the rejection, the structure is completely present in Harsch. Whether or not Harsch would have to be disassembled and reassembled is beyond the scope of the claims, as the claims only recite configurations such as "aligned" and "movable," which are met by Harsch.

The arguments regarding Smith are persuasive and the rejections have been withdrawn.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
